The Canadian Internet Society Policy Forum: Solutions for Canadian Digital Policy and Legislation

November 25, 2024 - Rideau Club, Ottawa

06 Closing Remarks - Next Steps for Canadian Digital Policy

Franca Palazzo, Executive Director, The Canadian Internet Society: So, thanks to all of you for coming tonight. I'm not going to labor on because I'm standing between you all and a drink, so I just want to say that I think today was very, very interesting, productive. We're going to take all of this feedback. It's going to be very useful in informing our report, and I hope that you will look out for additional forums, webinars that we will be hosting in order to further delve into the areas that we identified in our initial forum.

So thank you again for coming. If you're not a member of the Canadian Internet Society, I would encourage you to join us. Also if you, we have a policy committee that meets once a month where these types of discussions happen. I invite you to become a member and if you're interested in joining our policy committee, just email me.

Okay? Thanks.

Oh, and thank you to all of our viewers online.
